Caleb: "yeah and michelle backstabmann owed her big time too and that didnt stop her from backstabbing palin "
Caleb: "She surely would not let us continue to organize support groups for her, buy bumper stickers, pins, etc. that say "Palin 2012" - or whatever - vote for her in polls that would then be meaningless, etc. I definitely think she is running. I know Todd and Bristol are all for it. I don't know what Track and Piper think. I believe I heard that Willow might be against it. However, I think the BIGGEST problem in the family is Sarah's mother who is so afraid for her daughter's and daughter's family's safety! "
me: I agree with all of this
Caleb: You either trust Sarah 100% or you don't.
